

Fed Biz Opps Synopsis

Solicitation W56HZV-13-R-0103 Network Integration Exercise 14.1 Vehicle Tactical Routers

The United States Army Contracting Command – Warren, Michigan will be issuing a Request for Proposal (RFP), W56HZV-13-R-0103, seeking participants to provide its system solution and non-personal engineering field service support for the Network Integration Evaluation (NIE) 14.1 cycle exercise. The intent is to negotiate and award Multiple Award Task Orders (MATO) for Vehicle Tactical Routers. NIE is a series of semi-annual evaluations that test specific capability gaps or improve current capabilities that have been identified as necessary to progress the Army's tactical network. Participation in NIE 14.1 involves integrating and maintaining the solution offered, training of soldiers, various communication exercises and de-installation/recovery of contractor provided assets. The solicitation is being issued on a full and open competition basis using a Low Price Technically Acceptable (LPTA) selection approach with the anticipation of awarding up to ten Indefinite Delivery Indefinite Quantity (IDIQ) contracts. The Government anticipates posting the solicitation under RFP W56HZV-13-R-0103 on the PROCNET, NIE contracting webpage. The webpage will contain additional requirements, attachments and information pertaining to this requirement.

POC: David Patti, TACOM Contract Specialist, CCTA-AHK-A, phone: (586) 282-8115. Please address all inquiries to david.m.patti4.civ@mail.mil.

Note: this is a pre-solicitation notice. The solicitation pertaining to this notice has not yet been released. Contractors should not call the contract specialist seeking the solicitation but should continue to check the Fed Biz Opps website at www.fbo.gov or the NIE contracting webpage at <http://contracting.tacom.army.mil/research/nie/nie.htm> for updates and additional information regarding the posting of this solicitation.
